

Position Opening for an Assistant Professor of Department of Materials Science and Technology in Nagaoka University of Technology (NUT)

1. Position and Number of Employment: Assistant Professor (not a tenure-track position), One
2. Contract: Full time employment (contractual for two years (no renewal), annual salary determined on the basis of applicant's educational background and job experience)
3. Assignment: Energy and Environmental Engineering Group
4. Research Filed: Development of functional materials related to chemical energy conversion and removal/decomposition of regulated (or hazardous) chemical substances in aqueous environment
5. Job specifications: Research related to the above field, laboratory experiments on materials engineering and science for undergraduate students, and fundamental materials chemistry exercise and a part of lecture on materials science and chemistry
6. Requirements: Researcher with PhD degree in materials science or related fields, Can be a supervisor of undergraduate and graduate students
7. Deadline: May 31, 2018 (Application will be closed once appropriate person is found)
8. Starting date: As early as possible after June 1, 2018
9. Application materials: (1) Curriculum Vitae (with your photo, present address, educational records, job and research experience, awards received, your academic societies)
(2) Publication List (refereed papers, reviews, books, patents, conference papers, etc.)
(3) Your main three (or less) selected refereed papers (reprints or their copies)
(4) Summary of your previous research (within 1,000 words)
(5) Summary of your future prospects (within 1,000 words)
(6) Your research fundings if any (Separate principal investigator and co-investigator)
(7) Names and contact addresses of two references (address, E-mail, Tel/Fax etc.)
* Submitted materials will not be returned to you.
10. Selection: Paper screening as the primary selection, Interview (presentation on your research outline and your future prospects) as the second selection
* Travel expenses for the interview should be conveyed by the applicant.
11. Submission: Application materials should be sent to via mail post to the contact address below.
Professor Minoru UMEDA, Head, Department of Materials Science and Engineering
E-mail: mumeda@vos.nagaokautac.jp
Tel: +81-258-47-9323
(Write "Application documents for an assistant professor of Energy and Environmental Engineering Group" in red ink on an envelope containing the documents.)
It should be noted that documents submitted via e-mail are not accepted.
*NUT will keep the submitted documents properly and not use them except for the screening.
12. NUT is making best efforts on promoting gender equality.
